

You can always count on us down the road

Team up with the best in wheel service equipment

From the HD600, AG52L and HD1200 tire changers to the ET66 WL truck wheel balancer, Corghi has the right equipment to service your fleet. Back up this lineup with McCourt Industries' 250 service centers, full-time training center in Akron, Ohio, six mobile training units and over 60 nationwide trained field representatives, and you can see why it's time to team up with Corghi/McCourt.

**McCourt Industries**

Address: 1314 Centerview Circle, Akron, OH 44321  
Phone: 800-232-2190 or 330-666-0149  
Fax: 330-666-3432  
E-mail: vince@mccourtindustries.com  
Web site: www.mccourtindustries.com

**ISO 9001 CERTIFIED**

**Corghi HD600 Tire Changer**

The semiautomatic truck tire changer that'll turn your shop struggles into a profit-making adventure. With the HD600, the tire is mounted/demounted by means of a roller, eliminating damage to those expensive wheels.

**Corghi AG52L Tire Changer**

The AG52L is the latest achievement in Corghi research and the most advanced way of changing truck tires today. Handles tires up to a diameter of 87" and up to 39" wide.

**Corghi HD1200 Tire Changer**

The world leader in heavy-duty tire changers features heavy-duty construction and flexibility to the highest. The HD1200 allows for many applications and flexibility, and is ideal for regrooving tire treads. Handles wheels from 11" to 56" and tires up to 98" diameter and 48" wide.

**Corghi ET66 WL Truck Wheel Balancer**

The ET66 electronic balancing machine is available in either manual or motor-driven wheel spin versions for removed wheels of trucks and buses; with built-in pneumatic lift for wheels weighing up to 440 lbs. Handles wheels up to 28" diameter and 20" wide.
